- OS Papermap Copying Licence (see note 4 below)

Note 1 The annual software licence fee is optional and is recommended if you intend to print more than one map per week. The annual software licence provides access to lower map data rates and can be purchased at any time.

Note 2 A roam event occurs every time a map is re-centred. The initial map view charge includes 1,350m of free roaming. Each additional 150m roamed incurs a roam charge.

Note 3 Promap automatically calculates both the cost of the first prints and subsequent prints and displays it "on screen" with the map prior to printing. The user can thus decide if it meets the need of the project prior to committing to further expenditure. Mapping is charged by the area and 1:1,250 survey scale, having the greatest level of detail is the highest in cost. In all cases a minimum charge applies.

Note 4 Purchasing an Ordnance Survey Paper Map Copying Licence allows you to print unlimited free copies of your OS maps plus, free electronic transmission and inclusion on web pages. Only applicable for Detail and Street Plus map layers.

Note 5 Plan Design Build is available over 12, 18, 24, 30 months and provides advantages over the normal IBU DXF. For further information please see the Promap website.
